

Team Teqnify1894 Sprint 2 Retrospective

Members:

Liam Knight - Scrum Master (SM)

Yaseen Khan - Product Owner (PO)

Quan Nguyen - Developer

Justin Bowen - Developer

What we did right:

- Meeting frequently both in zoom and on discord

- Individual initiative to complete requirements

What we did wrong:

WE assigned less than what we could have done.

What we could do better:

A little more ambition for future sprints, pick up a workload that is reflective of our ability.
